

## **Aermont – No Consideration of Principal Adverse Impacts Statement**

This disclosure is being published to comply with the obligation of Aermont Capital Management S.à.r.l. (the “**AIFM**”) under Article 4(1)(b) of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector (the “**Disclosure Regulation**”) relating to principal adverse impacts of investment decisions on sustainability factors.

The regulatory technical standards under the Disclosure Regulation (“**SFDR RTS**”) specifies the content, methodologies and presentation of the disclosure that would be required for the AIFM to consider the principal adverse impacts of its investment decisions on sustainability factors, as contemplated by Article 4(1)(a) of the Disclosure Regulation. Given the application of the SFDR RTS has been delayed until January 2022 and the draft remains subject to adoption by the European Commission and scrutiny by the European Parliament and Council, the AIFM does not currently consider the principal adverse impacts of its investment decisions on sustainability factors within the meaning of the Disclosure Regulation, but will keep under consideration and review following the finalisation of the SFDR RTS.
